ABOUT THIS REPORT

The Metropolitan Area Planning Council is the designated regional planning agency for 101 cities and towns in metropolitan Boston. The Council helps its member communities plan in the areas of economic development, housing, demographics, transportation, water, solid waste and open space.

The information in this report was provided by the Massachusetts Department of Employment and Training.

Top Employers in the Metropolitan Area Planning Council

Introduction

This report lists the top employers in each community within the Metropolitan Area Planning Council region. Employment size is given as a "class size" rather than an exact count. In cases where there is a "tie" for tenth place, the list of top employers was expanded to include all those in the same class size.

The source of this data is the 1995 Job Guide, produced by the Massachusetts Department of Employment & Training. A description of the data file, including its limitations, is provided below. Any questions regarding the information herein, should be directed to Massachusetts Department of Employment & Training. If you would like a complete list of employers in your community (available on paper or in electronic form) or any other customized extract of this database, please contact the Metropolitan Data Center at (617) 451-2770.

Job Guide File

Information Description

The Job Guide is a listing of employers by establishment name, street name and number, city or town, zip code, area code and telephone number, 3-digit standard industrial classification (SIC) and employment size class.

Availability

Portions of the information are also available by calling (617) 451-2770 or writing the Metropolitan Data Center at the Metropolitan Area Planning Council, 60 Temple Place, Boston, MA 02111. Copies of the Job Guide are also available from the Department of Employment and Training. Send three 3-1/2" diskettes with a stamped, self-addressed mailing envelope to Peggy Colligan, DET/Field Research/MOICC, C.F. Hurley Building, 2nd Floor, 19 Staniford Street, Boston, MA 02114.

Limitations

Probably the most important limitation of the Job Guide is that one three-digit SIC code may be inadequate to identify specific types of employment. The employment size ranges provided are very imprecise for establishments with more than 1,000 employees. The file is for one time period (1995). Establishments with fewer than 20 employees are not listed. Perhaps 10% of the listings are post office box numbers that can not be geospatially located.

Updates

As of this writing (May 1997) there are no definite plans to update the Job Guide. It has been produced at irregular intervals in the past and DET is presently pursuing funding sources for regular file updates.
